

# SOLUTIONS FOR SPENT CATALYST

## METCHEM 2m3 catalyst bin

METCHEM Bin-rental is a unique service within our All-In solution.

Our 2m3 catalyst-bin is the industry-standard for quick, simple and safe turnarounds. The content of 10 drums will fit in one single bin. Use bins for minimal handling and maximal ease.

The bin is designed to allow storage outside, stacked 2 high -even when loaded full-. The lid covers the opening and lets any water run off.

The bins are certified according to UN 11 A/X and approved for road-, rail and even maritime transports. Every bin is tested to 0,2 bar pressure to assure a hermetically sealed (inert) environment for your catalyst.

### Technical specification

Dimensions:	130(l) x 110(w) x 213 (h) cm
Tare weight:	420 kg
Max. capacity:	2000 kg (2m3)
Max. gross weight:	2490 kg
Top lid:	ø 40 cm with 6 brass wingnuts
Bottom discharge:	235x565mm slide valve with dual cam bar closure
Materials:	3mm solid steel
